HQ Kites & Designs USA, a fully owned subsidiary of Invento GmbH, handles sales and distribution of recreational products into North & South America.

Our distribution and sales facility has a home near the Outer Banks of North Carolina where we deliver customer service, expedited shipping and product knowledge to specialty retailers, along with new and innovative products to ensure your business continues to thrive in an ever-changing marketplace. Our expanding line of innovative toys, kites, outdoor accessories, garden décor and gifts puts HQ ahead of the curve by offering the Buyer a One Stop Shopping experience that rivals all others.

HQ Kites & Design USA provides only the highest standards of customer service and our top priority is to make your business a success. Join us today for a brighter, profitable and more playful tomorrow.

Playing outdoors promotes a healthy lifestyle and flying kites will get you and your family on the road to happiness.

Our varied and unique line of single, dual and quad line kites provide endless hours of fun while providing a stepping stone environment for physical fitness and learning through the use of tethered flight.

For the adventurous and action minded, HQ4 has an attractive line of traction kites and accessories.

Whether your customer is new to the sport or looking for something new to try, HQ4 has everything they need to get started, improve snowkiting, kite buggying & landboarding. Engineered and field tested by our European designers, these high quality wings are ready for action!

Home is where the heart is and Windspirations provides a range of decorative items that convey a lovely message about your home.

An HQ original, Windspirations pioneered the garden spinner category in the mid-90s. Today, we stock a wide variety of artfully crafted designs to add a bit of elegance and color to your garden or home. Make a bold statement with a design created with you in mind.

We endeavor to keep people interested and learning new things.

Our expanding line of toys, gifts and gadgets feature their own catalog. Inside you'll find quality outdoor toys and games with Great Price Points. HQ Kites carries a spectrum of toys; from toys that get you outside and playing hard to creative play when the weather keeps you indoors.

WOODEN CITY

More information: www.hqkitesusa.com

WOODEN CITY – wooden mechanical models:

- ▶ Natural materials – all 3D model kits made from sustainably sourced birch wood
- ▶ Assembly of sets does not require any glue or tools
- ▶ Mechanical functions – all models produce motion (hand spun or rubber band propulsion)
- ▶ Moving parts are sturdily constructed (e.g. stable and solid axes) and different from competitors
- ▶ Unique 3D wooden models provide a variety of functions and work without any electronic components
- ▶ Easy assembly – ready-to-assemble parts are laser-cut
- ▶ All sets come in attractive and unique packagings (wooden boxes)
- ▶ Made in European Union
- ▶ Unique designs make all 3D wooden models popular collection models
- ▶ All functional models are not children's toys
- ▶ Age: 14+

Marble Run Mini

The 3D Wooden Marble Run Mini is a beautifully crafted toy that combines European craftsmanship with imagination. Made from birch wood, this toy is a testament to Polish roots and features intricate detailing for a mesmerizing marble labyrinth. Its hand-operated mechanism showcases the beauty of mechanics, offering a unique combination of art, engineering, and timeless play. Age: 14+

Wooden mechanical 3D model: self-assembly requires no glue or tools

Number of parts: 128

Assembly time: approx. 3 hours

Skill level: Medium

Model Size: 5.43" x 6.89" x 6.50"

Packaging size: H9.45" x W6.89" x D1.10"

Art. Nr. 502421

Escape Room Treasure Chest

The 3D Wooden Box Puzzle is more than just an assembly project; it's an immersive experience and a mystery waiting to be unraveled. This birch wood creation from Poland offers intricate design and mechanical marvel. Once assembled, it becomes a chest that holds secrets, and you embark on a thrilling journey of deciphering its enigma. As you piece it together, you are taken on a narrative adventure involving pirates, treasures, and deserted islands. The past comes to life, and the challenge is to discover hidden solutions through logical reasoning. This Escape Room Treasure Chest offers an intriguing and transcendent building experience. Age: 14+

Wooden mechanical 3D model: self-assembly requires no glue or tools

Number of parts: 165

Assembly time: approx. 3 hours

Skill level: Medium

Model Size: 5.00" x 2.90" x 4.46"

Packaging size: H9.45" x W6.89" x D1.10"

Escape Room Puzzle Box

The Escape Room Puzzle Box offers more than just a tactile experience; it's a historical voyage. The intricate engravings echo Templar and Masonic symbols, raising questions about a hidden connection between these orders. The carved inscriptions are not mere decoration but the key to unlocking the box's complex mechanism, protecting its contents. As you delve into its assembly, it feels like an ancient artifact lost in time, ready to reveal its secrets. Remember, brute force won't unlock it; each piece detaches effortlessly, and the answers require logical reasoning. Immerse yourself in this mesmerizing journey through time with the Escape Room Box. Age: 14+

Wooden mechanical 3D model: self-assembly requires no glue or tools

Number of parts: 149

Assembly time: approx. 5 hours

Skill level: Medium

Model Size: 3.42" x 3.74" x 3.74"

Jeep 4x4

Today the "Jeep" is a synonym for an expensive off-road vehicle. During WWII, the American company Willys started production of the Willys MB automobile. It went down in history as a reliable, manoeuvrable and functional vehicle. It was a "technical breakthrough". There was a real "war of engines". Overcoming of obstacles, road dust and risk - you have a real adventure in your hands! Assemble this exciting model with ready-to-assemble laser-cut parts and the rubber band engine which is included in the box. Wind up the rubber motor with the wooden key and start the Jeep. After assembly, you need to set the position of the lever forward or backward, set the locking lever in the stop position, start the model with the key and lower the lever (the key is located in the spare wheel). The front wheels are steered. Open and fix the hood by two locks and tilt the windshield. The Jeep can boast further exciting features - four-wheel drive transmission, independent suspension on both axles, internal combustion engine with moving pistons, 3 moving pedals (which are resiliently pressed with an additional rubber band), rear-view mirror, removable shovel, axe and canister. The Jeep runs up to 4 meters and is a real find for those who are fond of history and adventure. Incl. detailed step-by-step instructions. The explanations of assembly stages are intuitive and easy to follow. The Jeep will serve you for many years as an original interior decoration and a proof of your engineering skills. Age: 14+

Wooden mechanical 3D model: self-assembly requires no glue or tools

Number of parts: 564

Assembly time: approx. 12 hours

Skill level: Advanced

Model size: 7.05" x 5.94" x 5.83"

Packaging size: H9.45" x W13.98" x D2.01"

Trailer

Now complete your Wooden City Jeep 4x4 with the detailed military trailer. The trailer is provided with a suspended axle. A special lever makes it possible to tilt the loading area, the rear loading flap can also be opened. A removable reserve canister as an accessory gives the trailer that last little touch. The trailer has a hitch and can be easily connected to the Jeep 4x4.

Age: 14+

Wooden mechanical 3D model: self-assembly requires no glue or tools

Number of parts: 119

Assembly time: approx. 2 hours

Skill level: Medium

Model size: 9.65" x 5.67" x 4.41"

London Bus

Have you ever been to London before? Are you a 3D puzzle geek like us? Plunge into the vibrant London atmosphere by building our Wooden City 3D mechanical model – the famous London double-decker! Assemble this exciting model with ready-to-assemble laser-cut parts and the rubber band engine which is included in the box. Wind up the rubber motor with the wooden key and start the London Bus. There are two trigger levers installed in this London Bus model to operate the speed level (speed control trigger) and the bus driving direction (direction control trigger). Listen to the engine sounds that we meticulously crafted in the manufacturing process to provide a more realistic driving experience. The London Bus rubber band engine operates in 2 speeds and is the most powerful on the market – the London Bus runs up to 4 meters. But that's not all! The London Bus has three passengers whose safety will be in your hands. Incl. detailed step-by-step instructions. The explanations of assembly stages are intuitive and easy to follow. The London Bus will serve you for many years as an original interior decoration and a proof of your engineering skills. Age: 14+

Wooden mechanical 3D model: self-assembly requires no glue or tools

Number of parts: 216

Assembly time: approx. 6 hours

Skill level: Advanced

Model size: 9.21" x 2.76" x 4.53"

Packaging size: H9.45" x W13.98" x D1.57"

MOQ	CP	MC	5
1	-	26	906874 128183

Biplane

Would you like to build your own airplane in less than 2 hours? Do you enjoy 3D wooden model kits as much as we do? Then go ahead with the Wooden City Biplane model. Assemble this exciting model with ready-to-assemble laser-cut parts and the rubber band engine which is included in the box. Wind up the rubber motor with adjustable acceleration and start the Biplane - the Biplane runs up to 0.5 meters. Incl. detailed step-by-step instructions. The explanations of assembly stages are intuitive and easy to follow. The Biplane is an amazing gift for anyone with a passion for airplanes with geared engines. It will serve you for many years as an original interior decoration and a proof of your engineering skills. Age: 14+

Wooden mechanical 3D model: self-assembly requires no glue or tools

Number of parts: 63

Assembly time: approx. 1.5 hours

Skill level: Easy

Model size: 6.34" x 5.51" x 3.46"

Express Train + Rails

The Wooden City locomotive is a mechanical masterpiece reminiscent of the steam wheels of bygone times. The model is powered by a rubber motor and gears, but all other functions (e.g., pistons, valves, cylinders, connecting rods, drive rods) are very close to those of a real steam locomotive. A detailed cabin, the boiler cladding and functioning doors and flaps make the steam locomotive a fascinating model in the Wooden City range. Age: 14+

Wooden mechanical 3D model: self-assembly requires no glue or tools

Number of parts: 384

Assembly time: approx. 7-8 hours

Skill level: Advanced

Model size: 13.78" x 4.80" x 4.33"

Packaging size: H9.45" x W13.98" x D1.57"

Café Racer (Motorcycle)

British motorcycle fans of the early 1960s often held original events in pubs and cafes with races to music in London. The distance from the Ace Cafe to the next roundabout was 2 km, and the racers had to cover this distance while the song was played in the jukebox. The detailed Cafe Racer model by Wooden City pays homage to the motorcycles of that time. Age: 14+

Windmill

Green meadows, birds in the blue sky, and a windmill – windmills have shaped European landscapes for centuries. As soon as you open the wooden box this mechanical model will spark your imagination. The Windmill model can boast a nice bonus feature – a small coin box at the bottom of the patterned stand. Assemble this exciting model with ready-to-assemble laser-cut parts and the rubber band engine which is included in the box. Wind up the rubber motor with the wooden key and start the Windmill with the trigger lever. Observe the whole rotation process when the Windmill triggers off the gears, among which there is a flywheel, and a real planet gear. On the left there is a trigger lever to stop movement of the Windmill. The operating time is 1 minute. Incl. detailed step-by-step instructions. The explanations of assembly stages are intuitive and easy to follow. The Windmill is a project of advanced level of difficulty. It will serve you for many years as an original interior decoration and a proof of your engineering skills. Age: 14+

Wooden mechanical 3D model: self-assembly requires no glue or tools
 Number of parts: 222
 Assembly time: approx. 7 hours
 Skill level: Advanced

Kinetic Picture

What at first glance looks like a clock is in reality the model of a Kinetic Picture. Assemble this unusual moving picture with ready-to-assemble laser-cut parts and the rubber band engine which is included in the box. Wind up the rubber motor with the wooden key and start the Kinetic Picture with the trigger lever - the optical illusion will capture your imagination. Observe the whole rotation process when the Kinetic Picture triggers off the gears. Adjust the tightness of the rubber band and speed of rotation of the mechanism with the trigger lever. A hook is attached to hang the picture on a wall. The operating time is 1 minute. Incl. detailed step-by-step instructions. The explanations of assembly stages are intuitive and easy to follow. The Kinetic Picture is a real fun for those who appreciate beauty and love science. Age: 14+

Safe

This model of Wooden City is a real safe with combination lock - it can be opened with a secret number combination of 3 digits. The code can be changed at any time. If the code has been forgotten, the safe can be opened with a secret function (this method is described in the manual). If the combination was correct, the safe opens automatically when the third digit is entered. To lock the safe again, just close the door and turn the knob - the safe locks itself. The safe is the perfect model for hiding banknotes or other valuables. With handle for easy transport. Age: 14+

Time For Machine - exquisite mechanical model kits made of stainless steel

- ▶ Elegant 3D mechanical models made of high-gloss, stainless steel (AISI 304)
- ▶ All models have mechanical functions with many moving parts
- ▶ Truly unique products
- ▶ All components are extremely precise and ready to assemble
- ▶ Elegant collectibles - the perfect decoration for living room and office
- ▶ For young and adult inventors with a passion for technology
- ▶ Age: 14+

Royal Voyager

The American dream car - a shiny metal sedan from the era of the big street cruisers of the 70s. Doors, trunk and hood can be opened to learn more about the model and the engine. Wind up the spring drive and push the start lever to set the model in motion. Elegant, eye-catching, beautiful - the perfect decoration for a bookshelf, a desk or living room. The kit also contains detailed operating instructions that explain the assembly of the parts in an understandable manner. Age: 14+

- ▶ Metal mechanical 3D model: Made of high-gloss, stainless steel (AISI 304)
- ▶ Contents: 5 metal plates with parts, 3 additional gears, pre-assembled spring drive, pliers, file, gloves, cloth for polishing, instruction manual
- ▶ Number of parts: 123
- ▶ Model size: 8.43" x 2.83" x 2.01"
- ▶ Packaging size: 10.39" x 5.51" x 0.98"

Luxury Roadster

The Luxury Roadster is reminiscent of the legendary Bentley Speed Six which became famous through a series of record-breaking competitions between automobiles and trains in the late 1920s and early 1930s. The model provides impressive features: Rubberized metal wheels for better traction, equipment details made of soft eco leather underline the historical character of the model, pre-assembled spring drive for easy assembly, autopilot steering function, forward/reverse switch. Doors, hoods and the small luggage compartment can be opened. The kit also contains detailed operating instructions that explain the assembly of the parts in an understandable manner. Age: 14+

- ▶ Metal mechanical 3D model: Made of high-gloss, stainless steel (AISI 304)
- ▶ Contents: 4 metal plates with parts, 3 additional gears, soft eco-leather, 4 rubber treads for the wheels, pre-assembled spring drive, pliers, file, gloves, cloth for polishing, instruction manual
- ▶ Number of parts: 146
- ▶ Model size: 8.27" x 3.3" x 2.56"
- ▶ Packaging size: 14" x 7" x 1.38"

Art. Nr. 504211

MOQ	CP	MC

Chrome Rider

The Chrome Rider is the perfect model for real motorcycle fans and impresses with its engineering out of the ordinary. The Chrome Rider is not driven by a spring, but by a massive flywheel in the center of the vehicle. Driven by this flywheel the Chrome Rider can easily cover a distance of up to 10 meters while reliably maintaining its balance, additionally supported by the movable steering fork. The wheels are mounted on bearings for a particularly smooth run and the treads are made of rubber for better traction. The kit also contains detailed operating instructions that explain the assembly of the parts in an understandable manner. Age: 14+

- ▶ Metal mechanical 3D model: Made of high-gloss, stainless steel (AISI 304)
- ▶ Contents: 3 metal plates with parts, 6 additional gears, 4 bearings, 4 rubber treads for the wheels, pliers, file, gloves, cloth for polishing, instruction manual
- ▶ Number of parts: 90
- ▶ Model size: 5.9" x 2.64" x 2.36"
- ▶ Packaging size: 12.87" x 5.55" x 1.06"

Art. Nr. 504213

Medieval Hockey

Medieval hockey is the classic in the Time For Machine range. Many details have now been thoroughly revised: model size, format of the playing field, mechanism of the figures and the way they are put together. In Medieval Hockey, 2 players play against each other, each controlling 3 players on the field: goalkeeper, defender and striker. The object of the game is to move a small black hockey puck around the field and score a goal. Age: 14+

- ▶ Metal mechanical 3D model: Made of high-gloss, stainless steel (AISI 304)
- ▶ Contents: 3 plates with parts, 6 additional gears, plastic puck, pliers, file, gloves, cloth for polishing, instruction manual
- ▶ Number of parts: 87
- ▶ Model size: 9" x 5.1" x 3.35"
- ▶ Packaging size: 14" x 7" x 1.38"

FRANZIS

Learn more about electronics. Eight and Franzis Electronic Kits are the best way to tap into the exciting world of electronics. The unique kits provide hours of fun for everyone from beginners to professionals. Each kit comes complete with all necessary components and detailed assembly instructions.

More information: www.hqkitesusa.com

Bat Detector

This kit makes finding bats an easy and fail-safe exercise: The board is already equipped with numerous SMD components. You only have to put together a few parts yourself and wire the board with microphone, loudspeaker and the setting controls. Modern integrated circuits provide high sensitivity and volume. With the finished detector, the ultrasound calls of bats can be made audible. This way you can track down these fascinating flying artists in the dark even where they are otherwise completely unnoticed in the hunt for insects. Requires one 9V battery (not included). Construction complete without soldering! This is not a toy! Not suitable for children under 14 years of age.

Ford Mustang V8 Model Engine Kit

A star is born! Series production of the first generation of the Ford Mustang began in 1964. Since then, the "Pony Car" has become the epitome of the American sports car. What made this legendary automobile with its emblematic running horse on the radiator grille so distinctively charming was its sporty image combined with high-performing, reliable technology under the hood. Build a transparent, functional model of the formidable V8 engine from the 1965 Ford Mustang (200 pieces, scale 1:4). The enhanced 289 K-Code V8 High Performance engine produced a captivating 271 HP at 6,000 revolutions per minute, and a maximum torque of 321 lb-ft (423 Newton meters) at 3,400 rpm. In three hours, you'll build a finely detailed, transparent Ford Mustang 289 K-Code V8 model engine with original motor sound – now also with coloured components like the real vehicle. All of the model parts move exactly as they do on the original, life-size model. The components fit together easily, either as interlocking pieces or with screws – no glue required. The Ford Mustang kit comes with an exclusive 100-page booklet, complete with top-notch details and numerous stunning illustrations that guide you through the history of the Ford Mustang while outlining the technology that lies under the hood. The handbook contains a detailed and generously illustrated step-by-step guide that will lead you through the construction of the engine kit with clear instructions. Additionally required: 3 x 1.5 V batteries (AA). Age: 14+

Porsche Flat-Six Model Engine Kit

The Porsche flat-six boxer engine and the cars it powers are legendary. Build your own classic model (290 parts, model scale: 1:4) of a 1966 Porsche 911 2 litre flat-six engine. Watch its operation through the transparent cylinders to learn how a flat-six engine with its horizontally opposed cylinders works and discover the fascinating world of automotive engineering! All essential engine parts move authentically: Crankshaft, pistons, valves, simulated ignition sparks, ignition distributor, driven fan propeller. Incl. display stand and sound module with the original boxer sound. Improved model: Parts now in new colour, many of them in metallic look, high-quality loudspeaker for powerful boxer sound, extended manual, sound module now with audio output. No glue needed – all components are easy to assemble and screw together. A high-quality companion book provides plenty of information on and fun facts about Porsche and the 911. The development of the iconic design and the corresponding technical concepts are clearly explained. Engine size: 11.81" x 11.42 x 8.66". Contents: 290-part-contruction kit, motor sound module, high-quality companion book including detailed step-by-step instructions. Additionally required: 3 x 1.5 V batteries (AA). Age: 14+

Porsche Carrera Model Engine Kit

Build your own classic Type 547 4-cylinder boxer model! The myth of the Carrera engine! To this day, the model 547 Porsche racing engine is considered to be unique in the world of racing. This technical masterpiece was one of the reasons for the numerous Porsche racing victories in such legendary vehicles as the 356 or the 550 Spyder. With this pack, you can experience the model 547 engine masterpiece and build a transparent working model of the flat-4 horizontally opposed engine. Using more than 300 parts you can build a detailed transparent engine model, with all parts moving like in the big model: crankshaft, pistons, valves. Including original motor sound. The components are easy to stick and screw together – without any adhesive. Model size: 10.83" x 11.22" x 11.02". The high-quality companion book offers comprehensive information on Porsche, the early days of racing at the Zuffenhausen sports car makers as well as the Porsche engine 547. Additionally required: 3 x 1.5 V batteries (AA). Age: 14+

VW Bulli Model Engine Kit

The Boxer engine conquers the world. When production of the VW Type 2 commenced in 1950, the car was just the second model by Volkswagen after the „Beetle“. With its aircooled boxer engine, the „Bulli“, as it was called by its fans, became an icon of our roads and its boxer engine became Volkswagen's most-built engine. With this package you can enjoy a transparent functional model of the four-cylinder flat engine (200 parts, scale: 1:4) of the legendary „Bulli“ of the years 1950 to 1953 which fascinates its numerous fans worldwide to this day. Fun technology for you and your whole family! Assemble a detailed transparent engine model of the Bulli in about two hours. All parts of the model kit move exactly like the original does. Including sound module for original motor sound. A richly illustrated companion book with step-by-step assembly instructions leaves no questions about the history of the Bulli and the Boxer engine unanswered. Engine size: 8.66" x 7.87" x 6.69". The components fit together easily, either as interlocking pieces or with screws – no glue required. Additionally required: 3 x 1.5 V batteries (AA). Age: 14+

PUSTEFIX - 75 YEARS OF BUBBLE MAGIC

Pustefix, a beloved German brand, has been enchanting people of all ages with its rainbow-colored soap bubbles since 1948. Rolf Hein, a chemistry graduate, stumbled upon the secret formula by accident and these magical bubbles have been a source of delight ever since. Whether in the garden, at birthdays, weddings, or corporate events, Pustefix guarantees endless fun and entertainment for children of all ages. ‚Pusti‘ the Bear and Pustefix have become synonymous with happy childhood memories. Even as a small gift, it’s a big bottle of joy! Proudly made in Germany.

presents:

More information: www.hqkitesusa.com

PUSTEFIX Tube

The popular Pustefix bubble-blowing solution is sure to provide your child with hours of popping fun! Each adorable bottle includes a colorful bubble wand built into the bottle cap. Age 4+

Pustefix small tube 70 ml / 2.3 oz. with wand.

Art. Nr. 505000			NEW!
MOQ	CP	MC	
1	25	100

1	25	150	

PUSTEFIX Bubblegator

Children love to catch and burst flying Pustefix bubbles. The Bubblegator simply devours them with the touch of a button. Watch its head pop out as it snatches bubbles from the air. Includes a 70 ml Classic Tube of Pustefix liquid. Age 4+

Art. Nr. 505422			NEW!
MOQ	CP	MC	
1	-	15	

PUSTEFIX Bubble Friends

A delightful collection of three charming characters: a blue cat, a red bear, and a green frog. These ergonomically designed companions are the perfect fit for children's hands, making bubble-blowing a breeze. No need to worry about spills, as the bubble wand neatly inserts into the top, locking in the solution and ensuring a mess-free experience. When it's time for a refill, simply unscrew the Friends at their center and replenish the liquid for hours of bubble-blasting excitement! Age 4+

► Airglider

With wings made of extra strong rip-stop fabric and a fiberglass and carbon composite frame, our gliders are robust and more durable than conventional models. With their graceful lines and delicate aerobatic manoeuvres these gliders offer a feast for the eyes while they soar through the sky. Our Airglider offers the flyer many alternatives to experiment with the flight experience. You are encouraged to add or subtract ballast and adjust the wings to alter the flight characteristics.

Airglider 40

Start with: Handstart, rubber band catapult (incl.)
Wingspan: 16", Length 18", Sail: Ripstop-Polyester, Fuselage: Carbon, Age: 6+

Pro Blade

Get ready, get set, and throw for an incredible flying performance with the Aerobie Pro Blade Self Leveling Throw Ring. Made for both right and left-handed throwers, these are the easiest rings to throw and catch with innovative technology that allows the ring to self level as it rotates in the air. They are the perfect throwing toy for exhilarating flying disc games such as ultimate frisbee, disc golf, or basic outdoor freestyle play. Additionally, Pro Blades are easier and more comfortable to catch because of their easy to hold ring-like shape. The throw ring's open center provides players with the ability to experiment customizing their throwing and catching styles and create their own fun outdoor games to play with family and friends. Size: 14" x 10.5". Age: 5+

Art. Nr. 360170				
MOQ 1	CP 12	MC 12		6

Sonic Fin Football

Throw like a pro with the Aerobie Sonic Fin High Performance Football. Officially endorsed by Russell Wilson, the quarterback for the Denver Broncos, this aerodynamic football puts the power of a pro in your hands. The innovative hollow gyroscoptic design creates ultimate lift and max distance in the air so you can go long with throws up to 100 yards or 90 meters. Listen to it whistle as it flies! With its customizable calibration ring, this kids football is great for both right and left handed throwers, letting every player challenge themselves while playing their favorite sport and outdoor game. The precise balance of the Sonic Fin football makes it easier to toss perfect spirals like your favorite NFL quarterback, and the durable plastic fins can be adjusted to increase the spin rate for maximum speed and distance. The Sonic Fin Football measures 5.38" x 4.63" x 9.75". Age: 8+
