We have inherited a beautiful tradition at Muñecas Llorens: giving laughter and dreams to young children by creating dolls that inspire happiness.

While committed to childhood, education and learning, we are fully aware of the importance of play for emotional and intellectual development in children. Muñecas Llorens therefore treats every one of its dolls with great care by using premium quality materials, making them entirely in Onil and adding a small piece of our heart to each and every one.

At Muñecas Llorens, we respect the environment and promoted sustainable measures in our business policies all while fostering responsible action among society is a priority for us.

Besides encouraging children to play and develop by playing, our aim is to look after the places where they play and have fun in order to leave them with a better world.

Muñecas Llorens firmly believes in looking after our planet which is why most of our products are made of 100% wool, including organic wool and a selection of high-quality recycled and organic textiles.

Our dolls are made at Spain phthalate-free pursuant to European standards.
