9780762414741

\$6.95 USD

Carton Qty: 240

3.4 in H | 2.9 in W | 0.6 in T | 0.1 lb Wt

Based on his father's bestselling *The 7 Habits of Highly Effective People*, Sean Covey applies the same principles to teens, using a vivacious, entertaining style. To keep it fun, Covey writes, he "stuffed it full of cartoons, clever ideas, great quotes, and incredible stories about real teens from all over the world... along with a few other surprises." Did he ever! Flip open to any page and become instantly absorbed in real-life stories of teens who have overcome obstacles to succeed, and step-by-step guides to shifting paradigms, building equity in "relationship bank accounts," creating action plans, and much more. As a self-acknowledged guinea pig for many of his dad's theories, Sean Covey is a living example of someone who has taken each of the seven habits to heart: be proactive; begin with the end in mind; put first things first; think win-win; seek first to understand, then to be understood; synergize; and sharpen the saw. He includes a comical section titled "The 7 Habits of Highly Defective Teens," which includes some, shall we say, counterproductive practices: put first things last; don't cooperate; seek first to talk, then pretend to listen; wear yourself out... Covey's humorous and up-front style is just light enough to be acceptable to wary teenagers, and down-and-dirty enough to really make a difference.

Sixty years after the debut of the Peanuts® comic strip, this kit commemorates the enduring friendship of Snoopy and Woodstock. They share a love of ice hockey, ice cream, and so much more. Woodstock chirps out birdspeak, a one-of-a-kind language that Snoopy is fortunate enough to understand, so they can communicate in a very special way. It's kind of like that with your own best friend, isn't it?

This is a perfect gift for the Peanuts fan or anyone with whom you share that exclusive bond called friendship. The kit includes bendable figurines of Snoopy and Woodstock and a 32-page guide to maintaining the perfect friendship.

Enter the mysterious realm of a true oddity—a carnivorous plant. The book that comes with this kit leads you on an absorbing journey from a contemplation of how the flytrap works without muscles or nerves to the care and feeding of the plant. Scientists as well as everyday gardeners are fascinated by this natural wonder, which—despite its primeval exoticism—is actually indigenous to the southern U.S. The kit contains Venus Flytrap seeds, mini planter, peat pellet, sand, sealable plastic bag for a terrarium effect, and the 32-page guidebook. The plant doesn't actually grow as fast or as large as the most famous Venus Flytrap—"Audrey" in Little Shop of Horrors—but that's good news for the pets in the family.

**Grow Your Own Venus Fly Trap : Just Add Flies!**
