All robots are limited edition at 2000 pieces per model.

Ot \

Vulcano Bot MMT103B New 2022 We are very proud and happy to present to you our second collection of Mr & Mrs Tin. Like the previous collection, 8 new limited edition designs are being introduced and we will produce 2000 pieces each.

Families in over 30 countries welcomed the initial Mr & Mrs Tin collection, it was sold out in only a few months. We are so happy many collectors are on board, but above all, the next generation discovered the Mr & Mrs Tin collection. Looking at them and seeing the happiness in their eyes is our ultimate goal.

Mr & Mrs Tin is made for people who appreciate handmade toys, crafted with love and passion. Whether it is for their children to play and to grow up with, to collect or to add them in their home interior. Of course, Mr & Mrs Tin is made with the highest safety and quality standards.

A word from our founder Alain De Rauw:

"Love, passion and dedication are the core values of Mr & Mrs Tin - these values are represented in our everyday business. Since 1991, when I started working in the toy industry, this ethos has also been my motivation to work with certain brands.

Our wonderful partner in Shanghai and his team makes all of the Mr & Mrs Tin members by hand, it is great to show children how these handcrafted and unique products are made.

My very close friend Miguel, who is a super good comic designer made our Mr & Mrs Tin logo.

It's wonderful to see his logo every day, since it reminds me of our lifelong friendship.

With Mr & Mrs Tin I want to make vintage Tin Toys trendy and attractive again. Repeating the success this classic toy category experienced in the past."

Thank you for collecting

Mr & Mrs Tin
