# SmartNoggin Toys

Where Learning Begins at Birth

Award winning developmental toys  
to encourage your baby's milestones,  
beginning at birth!

# NogginStik™

Developmental Light-up Rattle

The NogginStik™ Developmental Rattle was created by early childhood developmental therapist/SmartNoggin Founder, Marcia Haut, to help parents encourage early milestones in infants. NogginStik™ isn't just a cute toy. It's an educational tool that will guide parents and caregivers through activities and interactions that will promote healthy brain development and bonding, and bring enjoyment to both parent and child.

## Baby's First Book of SOUNDS

The Foundation for Language and Literacy Begins at Birth

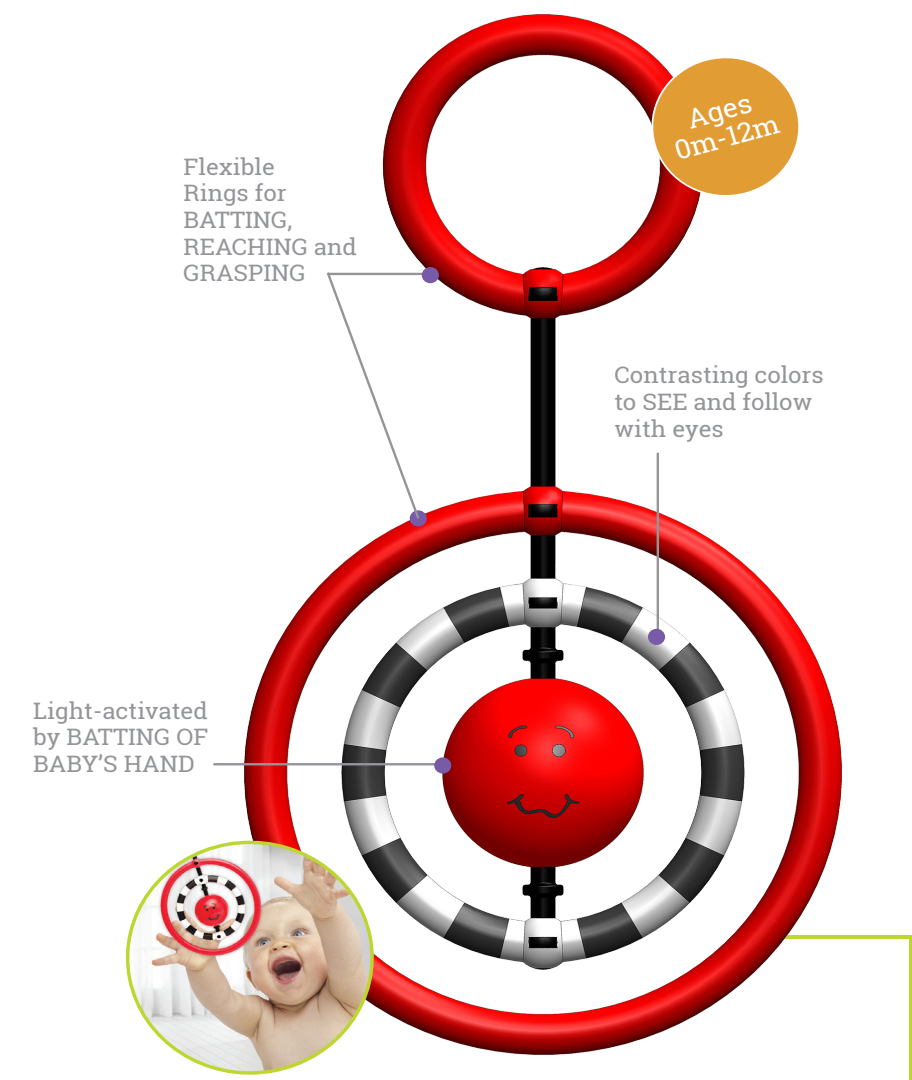

SmartNoggin's Baby's First Book of 44 SOUNDS™ includes the 44 sounds of the English language in a colorful board book that is ready to help start a baby on their language and literacy journey. This book allows a baby to hear each sound used in a word and then pronounced in isolation, with the goal of helping a baby's brain strengthen the neural connections needed to speak and read in the months and years ahead.

### THE BOOK INCLUDES:

- A link to our online sounds tutorial where you and your baby can listen to the sounds.
- A cute little food grade silicone teether to help strengthen baby's oral motor muscles needed to begin making those adorable first sounds.

**NEW!**

# NogginRings™

Reaching & Grasping Rings

The NogginRings™ Reaching & Grasping Rings was originally introduced in the 1980's. This Classic Developmental Milestone Maker is research based and has an updated design to encourage your baby's Batting, Reaching, Grasping, Transferring & Parent/ Baby Interaction milestones through play.
