Rachel and Michael own one of the oldest jigsaw puzzles in existence - an original John Spilsbury from circa 1767. Ultra rare - only a handful remain. Spilsbury is credited with INVENTING jigsaw puzzles.

## Meet Rachel and Michael

Founded in 2018, MicroPuzzles is a family-run business headquartered in Winter Garden, Florida. Inspired by the joy and nostalgia of puzzles, Michael and Rachel worked hard to create a unique puzzle experience with fun packaging, colorful art, and smaller pieces. From a one-bedroom apartment, the company has blossomed into a 3500-square-foot state-of-the-art facility.

Rachel Duguay & Michael Sturba

MicroPuzzles have proven sell-through, low MOQs, and genuine impulse appeal.
